

配置 SS 以及 BBR

```
wget --no-check-certificate https://raw.githubusercontent.com/teddysun/shadowsocks_install/master/shadowsocksR.sh
chmod +x shadowsocksR.sh
./shadowsocksR.sh
```

安装 BBR 加速:

```
wget --no-check-certificate https://github.com/teddysun/across/raw/master/bbr.sh
chmod +x bbr.sh && ./bbr.sh
sysctl net.ipv4.tcp_available_congestion_control
```

若出现

```
net.ipv4.tcp_available_congestion_control = bbr cubic reno
```

类似含有 bbr 字样即成功。
